

Glazed Fire-rated Doors and Fixed Assemblies

E 120

EI 30

EW 120

We are Hörmann, a pioneer in high performance doors across the world and No.1 door brand in Europe. Established in 1935, we adopt cutting-edge German technology to design, build and supply doors for Industrial, Commercial and Residential Applications.

We started our journey in India as Shakti Met-Dor(Now Shakti) in 1994 and have been operating as a Hörmann subsidiary since 2012, we have developed a reputation for excellence in the Indian market with high quality products, prompt delivery, and a service paradigm that has become an industry benchmark.

We have a Pan-India presence with sales and marketing offices spread across all major metros, and our manufacturing facility near Hyderabad is equipped to produce over 200,000 hollow metal doors and frames and over 10,000 Industrial doors per annum. All our doors come with varied options in Ironmongery, sizes and finishes, Incorporating the latest global standards in safety and security.

Our vision is to Introduce products and services that enrich customer experiences in the Residential, Commercial and Industrial spaces, built on the foundation of Innovation, Quality and Customer Fulfilment.

Manufacturing Facility
in Hyderabad

Our presence in the global economy's key regions makes us a strong, future-oriented partner for industrial and public construction projects.

In-house Product Development

Continuously evolving functional and safety requirements demand ongoing advancements in construction and equipment, particularly in the realm of movable components like doors. In this domain, our proficient development teams consistently demonstrate their specialized expertise.

Highly Sophisticated Production Methods

We at Hörmann rely on the latest production technology at our specialised factories. Computer controlled operations ensure dimensionally accurate elements with perfectly fitted fittings and functional parts.

Fire Testing at Accredited Labs

Our new and further developments are constantly tested for required fire resistance and smoke tightness through fire tests at CBRI - India, Warrington, UK and UKAS approved labs. We continually test and certify the glass and fire-rated steel frame profiles as per IS3614 Part 2 & BS476 Part 22 standards. The knowledge gained from these ensures high fire protection for life and property.

Expert Building Support

Experienced specialists within our customer oriented sales organisation accompany you from the planning stage, through technical clarification up to the final building inspection. Expert fitting is guaranteed by experienced Hörmann fitters and the specialised trained staff of our reliable partners.

Fully Glazed Fire-rated Doors have opened new avenues for architectural creativity. Transparent and aesthetically appealing, they match up with interior/exterior glazing and integrate seamlessly with the designers' intent.

DESIGN HIGHLIGHTS

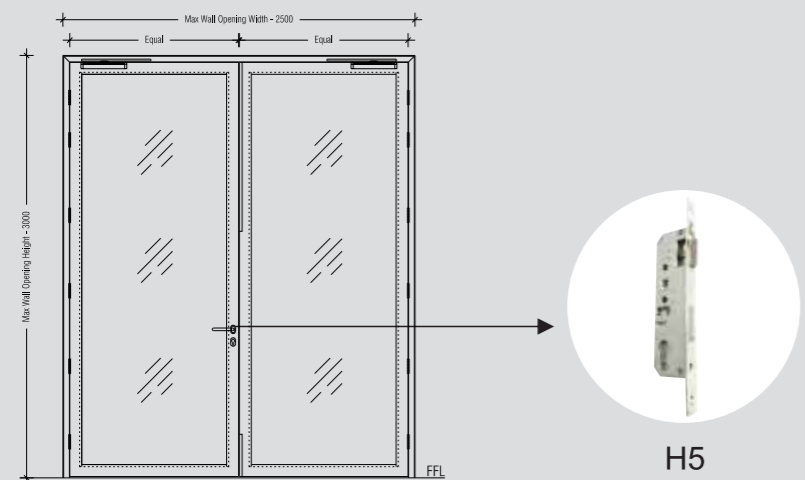

- Largest door tested in India in this category, available in both insulated (E) and uninsulated (EI/EW)
- Slim profile with integral astragal
- Range of glasses: 8 mm, 10 mm, 11 mm, 12 mm and 14 mm
- Fire rated lock from Hörmann in latched and unlatched conditions
- Only manufacturer to test a door in unlatched condition
- Any Certifire approved Fire-rated Glass can be used on our glazed systems
- Types of fire glass used: Borosilicate and Inter-layered
- Tested in Warrington, UK and CBRI, India
- Toughened and frosted glass options are also available
- Non Fire-rated Door options are also available for general application. They provide higher strength and durability when compared to UPVC and Aluminium Doors

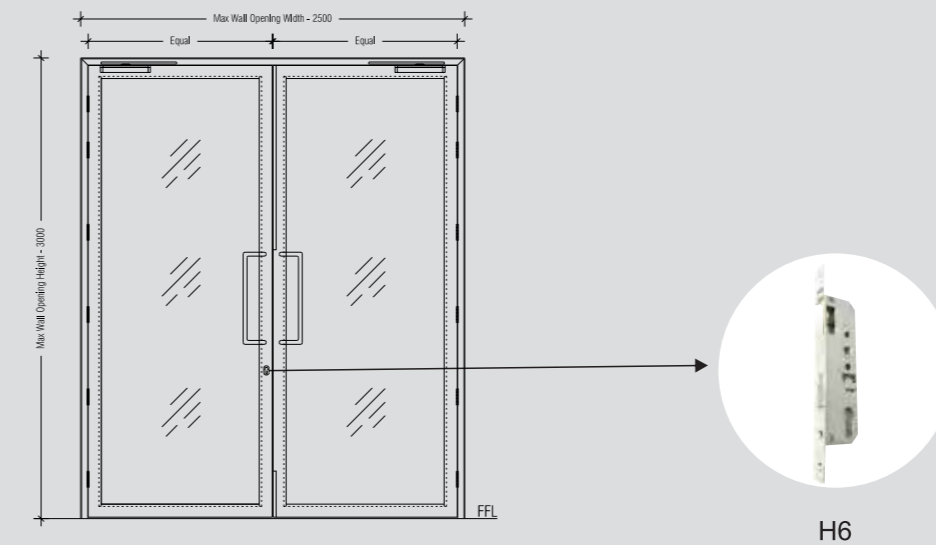

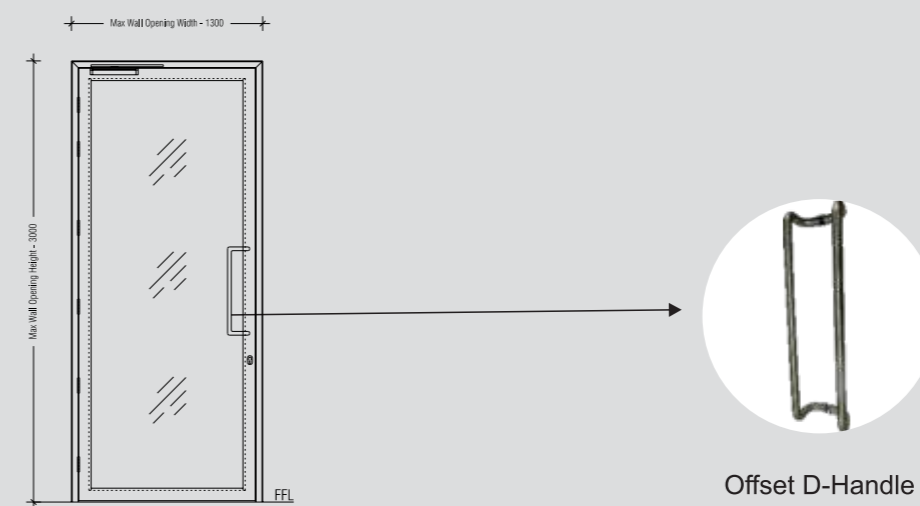

- Panic Bolting Technology ensures that people can get out of the Danger Zone at any time, even in a Panic Situation.
- One push on the Horizontal Activation Element is all it takes and the door springs open.
